## Make a Bookshelf Dragon

Cut out and fold the dragon and then slip into a bookcase. You can even colour in the dragon to match the books on your shelf so it will disappear!

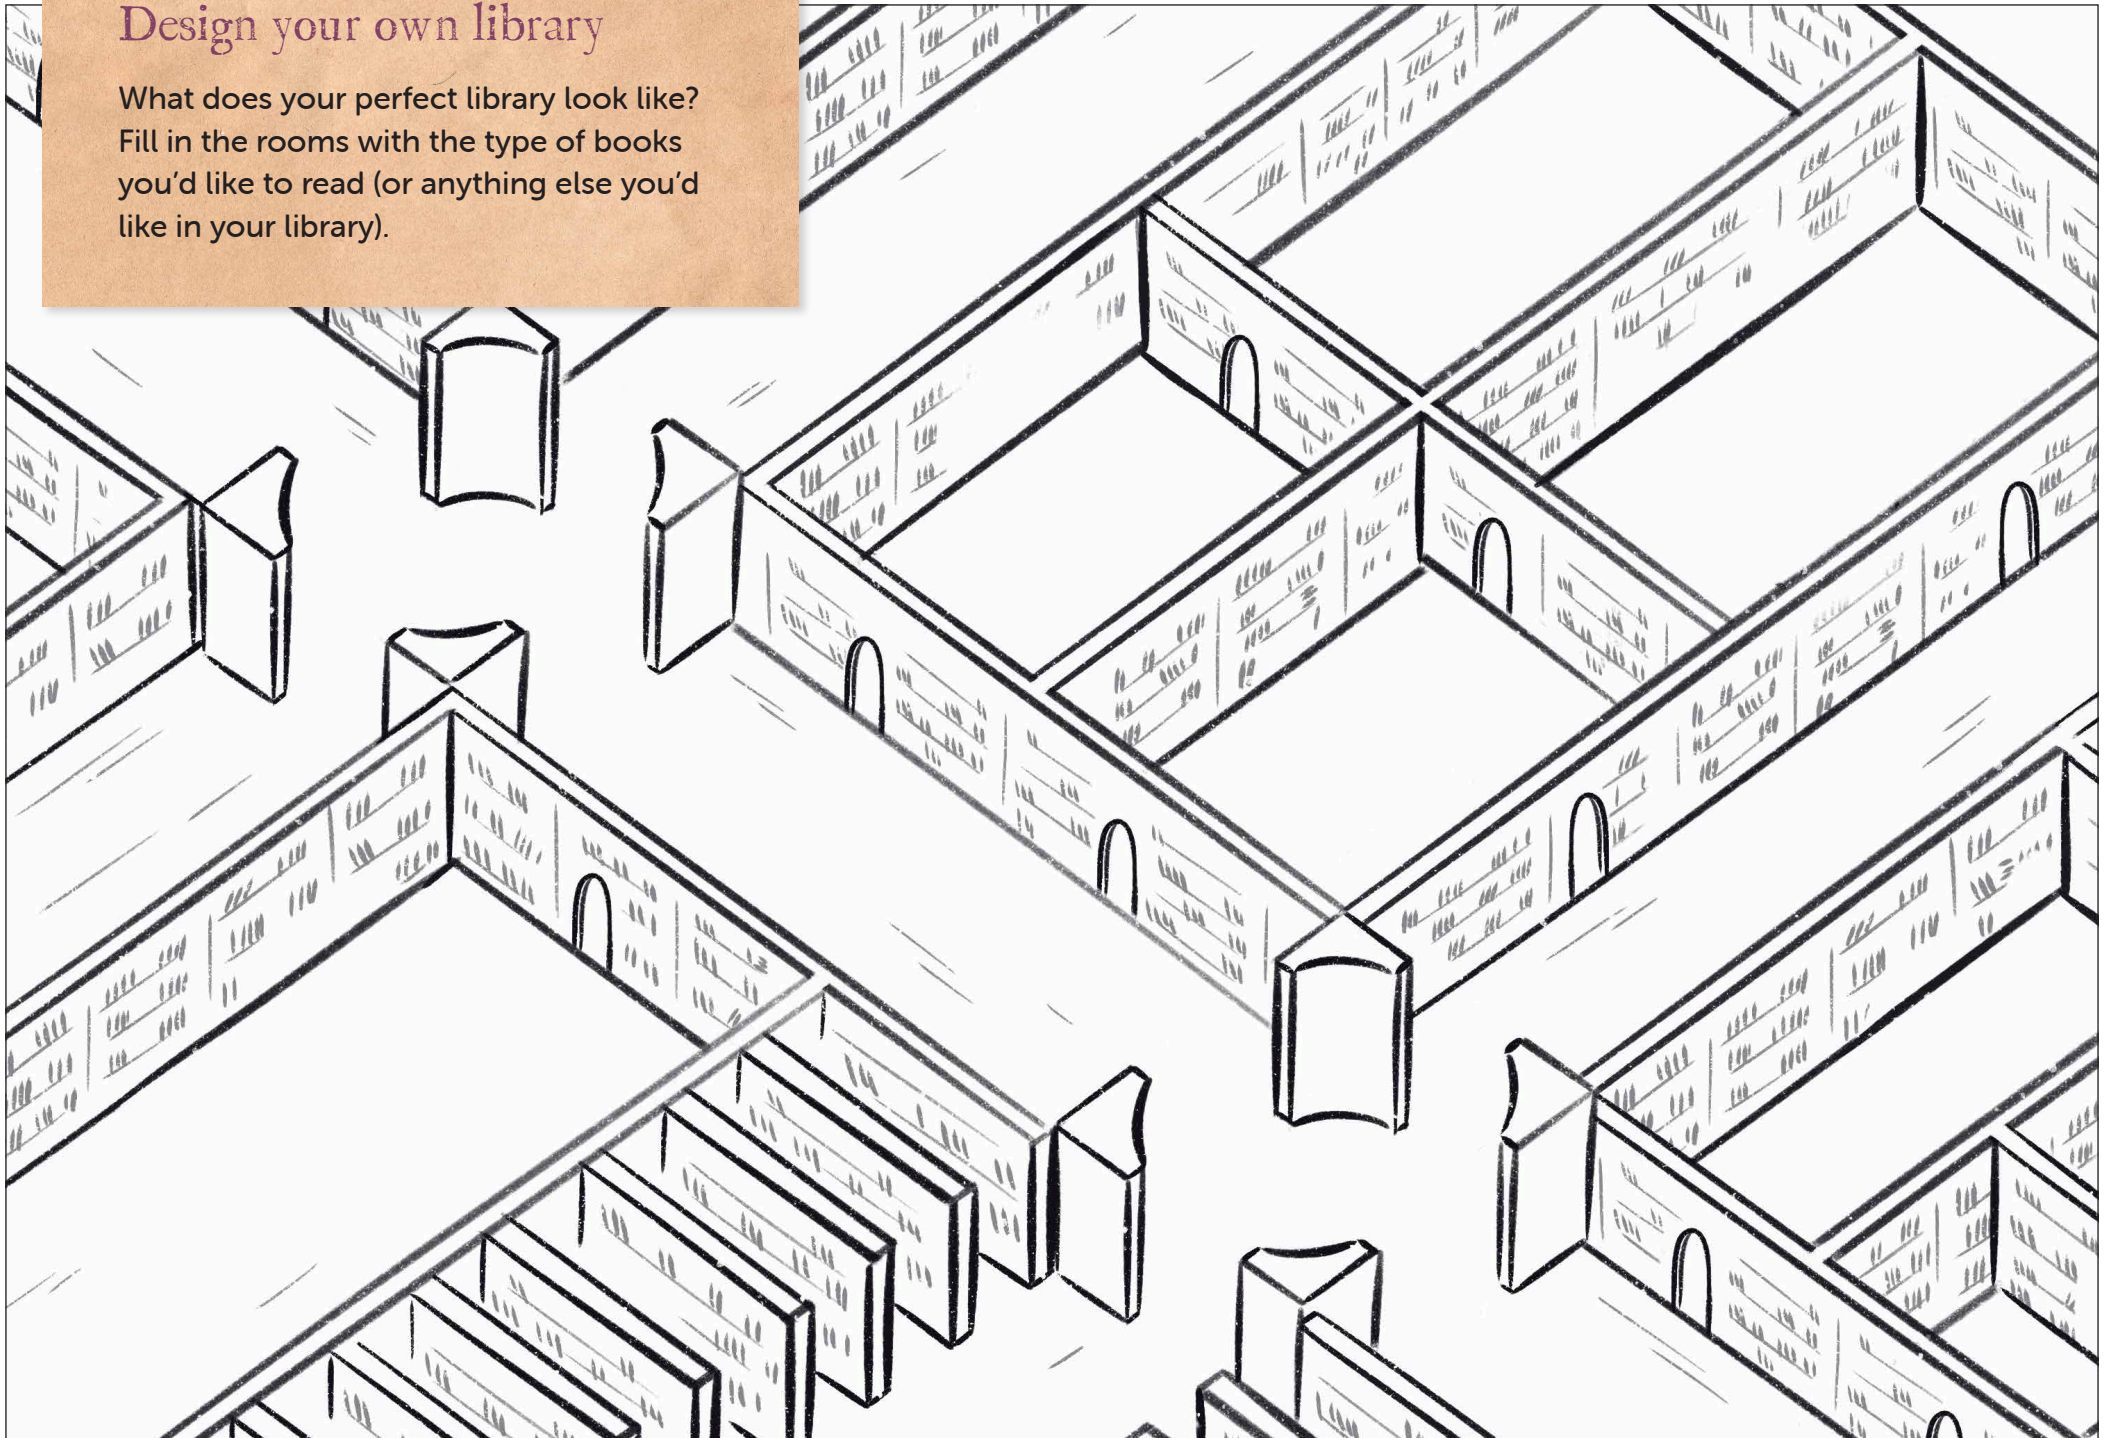

**Did you know?**  
Bookshelf Dragons live in most libraries. They're normally quite friendly (unless you wake them up).

## Design your own library

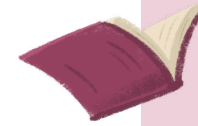

What does your perfect library look like? Fill in the rooms with the type of books you'd like to read (or anything else you'd like in your library).

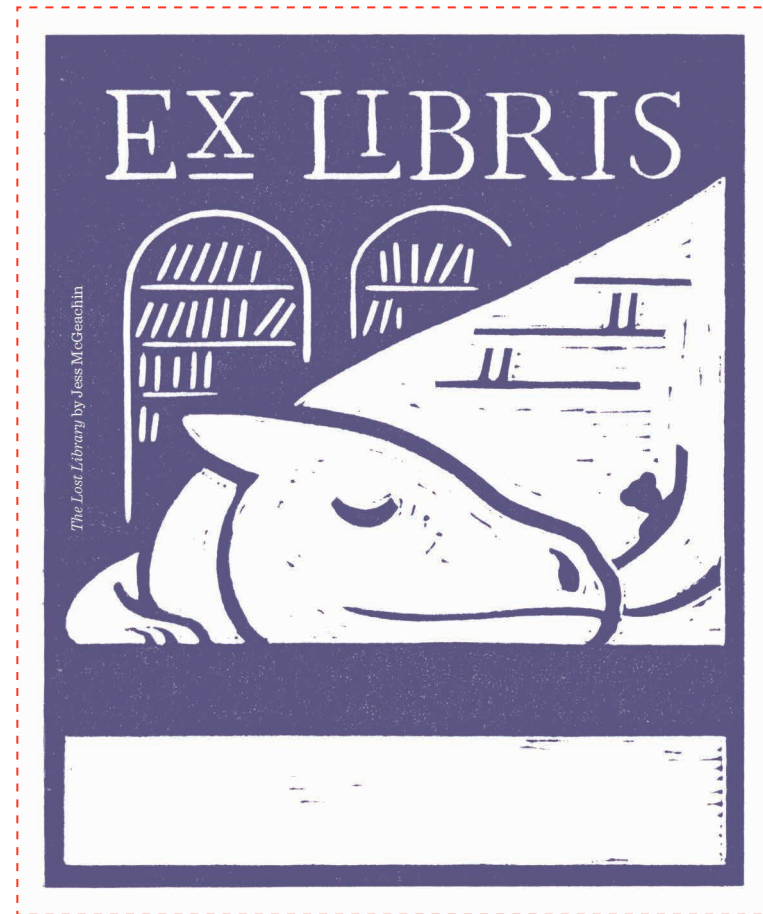

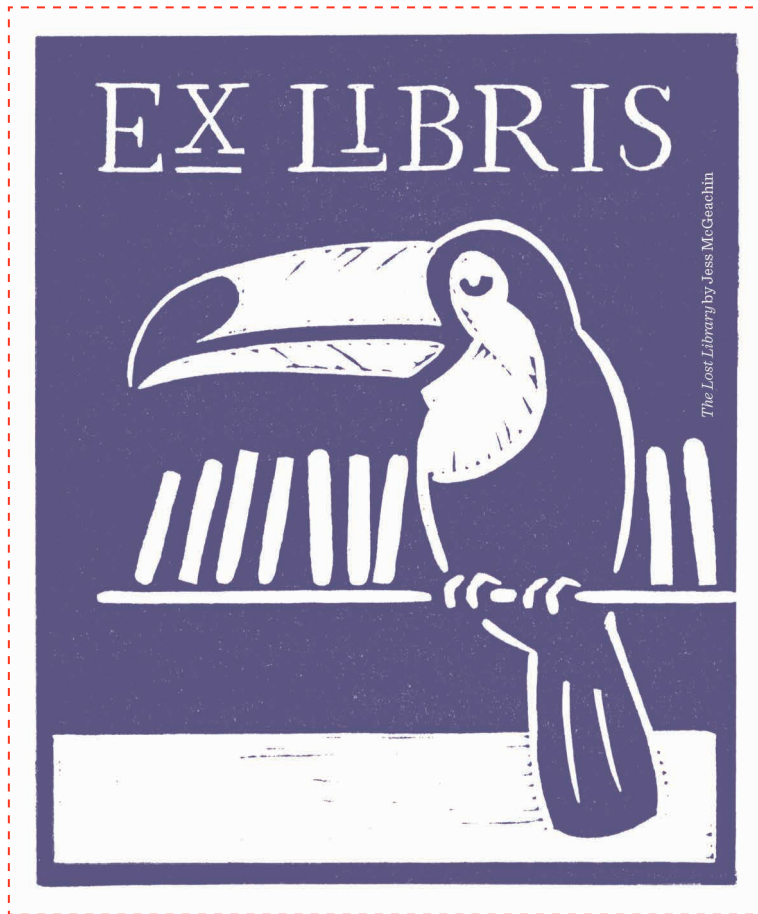

## Printable Bookplates

A bookplate goes on the inside cover of a book. You can print out one of these or design your own - don't forget your name!

Did you know?  
Ex Libris means 'from the library of' in Latin.

# How to knot a bowline

Perfect for stormy situations

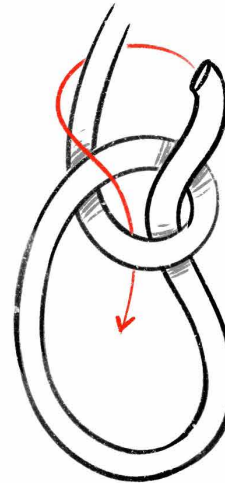

Did you know?  
The bowline knot is commonly used in sailing.

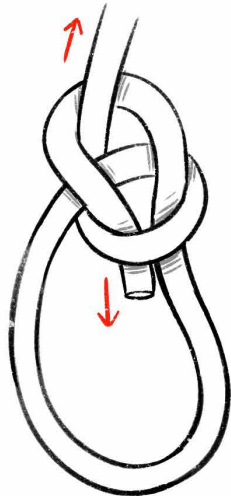

1

Make a loop and pass one end of the rope through.

2

Pass it behind the standing part and through the loop again.

3

Hold both ends and pull to tighten.

4

You've made a Bowline!

See you in the library!
